

## PARENTS PRAISE CASA'S SUMMER CAMP

This year's camp was excellent in every way! My kids had an outstanding time and cannot wait to return. I know they were sad it was over. What a special and precious place and opportunity this was. Thank you for all your time and effort. We can't wait to do it again next year!

— Elizabeth Kincannon

I wanted to extend our gratitude to the entire Casa Italia staff. This was the first year my children attended the camp, and they loved it. They very much looked forward to going to camp every day. The camp was very well organized, the itinerary was well thought out and the immersion approach really helped the children learn. The counselors spoke impeccable Italian, were very attentive to the children and kept them busy with fun activities all day. The dedication and enthusiasm that ALL of the staff brought to the camp was evident, and we are grateful for that.

— The Ohm Family

I was blown away by how well the staff took care of our children during the summer Italian immersion camp. The counselors were super enthusiastic, energetic and their Italian skills are excellent. My children are more interested in speaking Italian with me at home now, and they can't wait for next summer to attend this same camp again. A million thanks to the entire staff, including Nancy in the administrative office.

— Daniela Norton

My usually very picky daughter doesn't eat a lot of things, but she told me she ate the lunches and now is willing to try foods she didn't eat before Italian camp! Mille grazie from this grateful mama!

— Angelina Russo

When I saw (Casa Chairman) Ron Onesti at the conclusion of the camp, I thought, "How wonderful to see him so integrated into the preservation of our Italian culture." I now understand that the food was donated by Ron. We are so grateful for the well-rounded and nutritious meals afforded by Ron's generosity. Every day, I sent the children to camp knowing that their learning would be supported with great food, expertly and lovingly prepared. And when I picked them up, they were cheery and bright and passionate about learning Italian in a fun, immersive way.

— Jennifer Maniscalco

As you know already, we love Casa Italia! We miss many of the old faces, but we also welcomed the structured environment and program this year. Everything was wonderful. My children enjoyed the food, activity and company. Fresh meals are always a plus, and we are very thankful for Ron and all his efforts. My kids enjoyed all that was prepared for them. Nancy receives our endless praise, as she truly treats you like family! Leonora and her staff were wonderful. Mille Grazie!
